Appalachia Region.
*Land of Shawnee, Hopewell Culture,
Kaskaskia, Adena Culture, Myaamia.*
Peebles, Ohio

WHO WE ARE

HOW

By offering space for transformative
programming, empowered leadership,
innovative learning, and personal healing.

WHY

To leave a legacy of a more
peaceful, equitable, and
inclusive world.

WHEN

Year-round support,
regardless of weather
conditions.

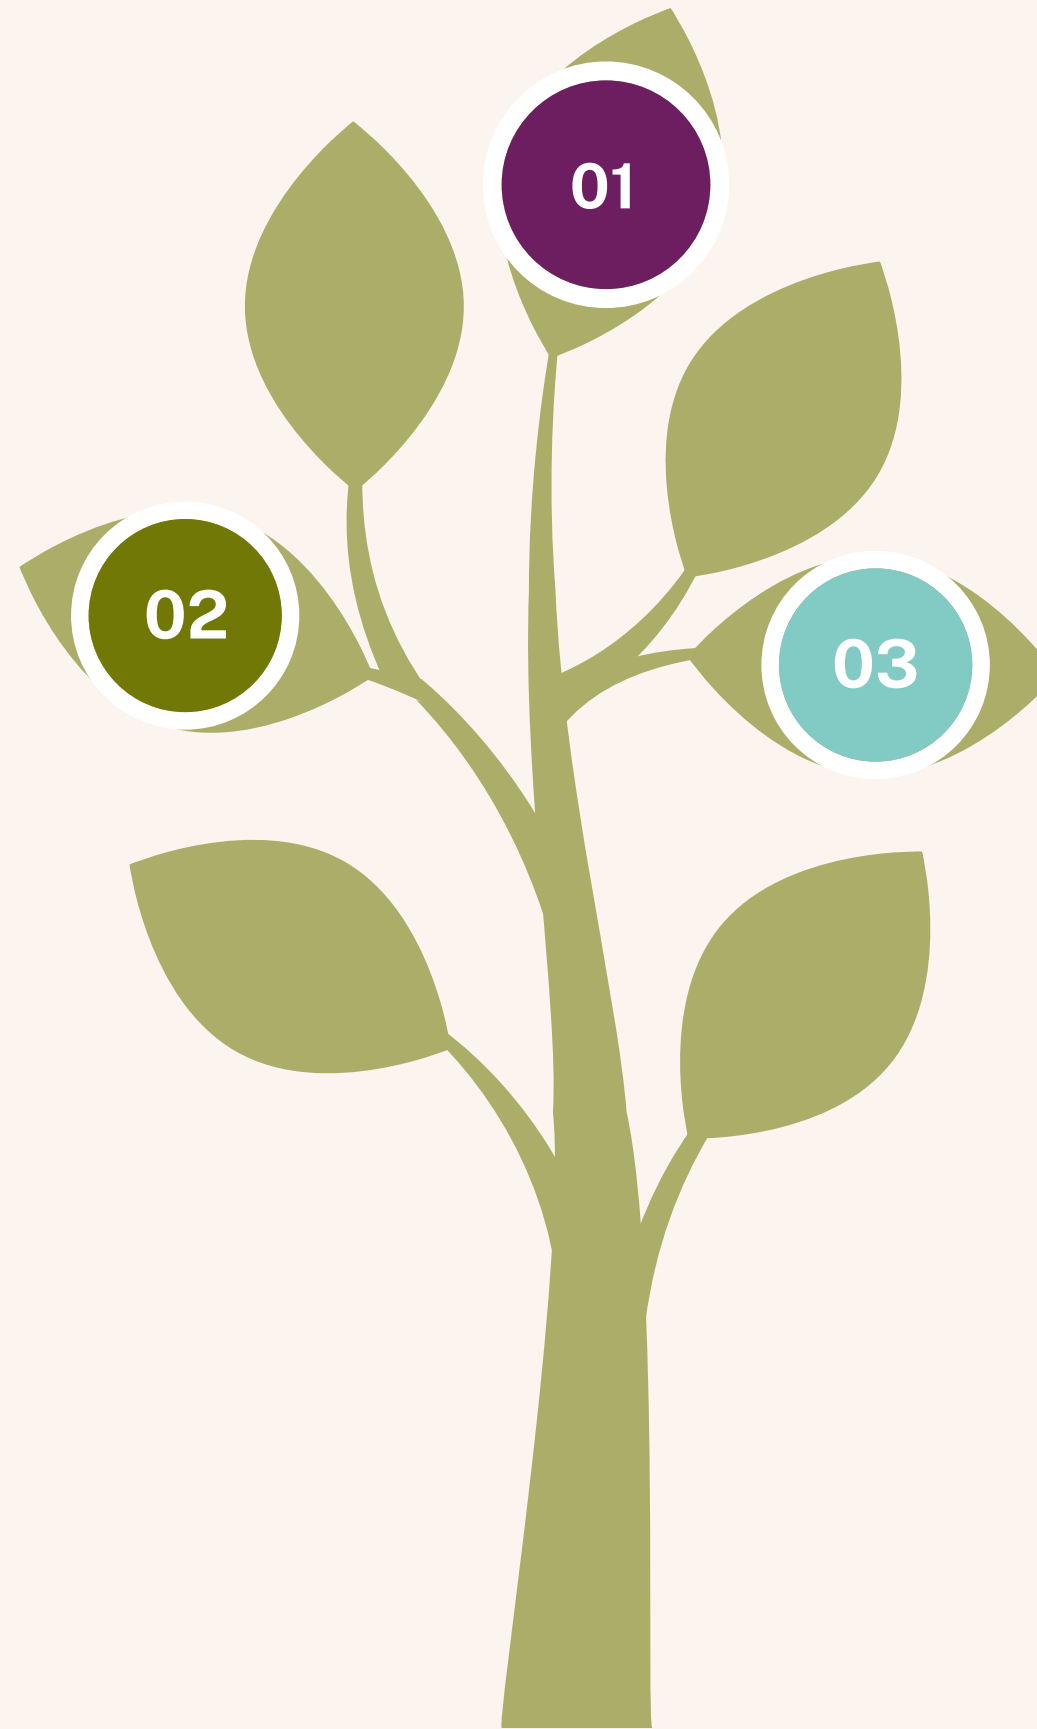

Our Roots + Branches

01 Our Mission

Hope Springs Institute holds sacred space and transformative programming for growth, leadership, and healing while honoring mind, body, spirit, and our Earth Mother.

02 Our Vision

We work to cultivate global peace through empowered leadership, innovative learning, and personal healing. Our vision is a more peaceful, equitable, and inclusive world.

03 Our Values

We believe in the inherent worth of every individual.

We value healing for ourselves, humankind, and the planet.

We practice theory-based and experiential learning that fosters right relationship.

We believe in respect for ourselves, each other, and the land.

We value the land as a sacred teacher.

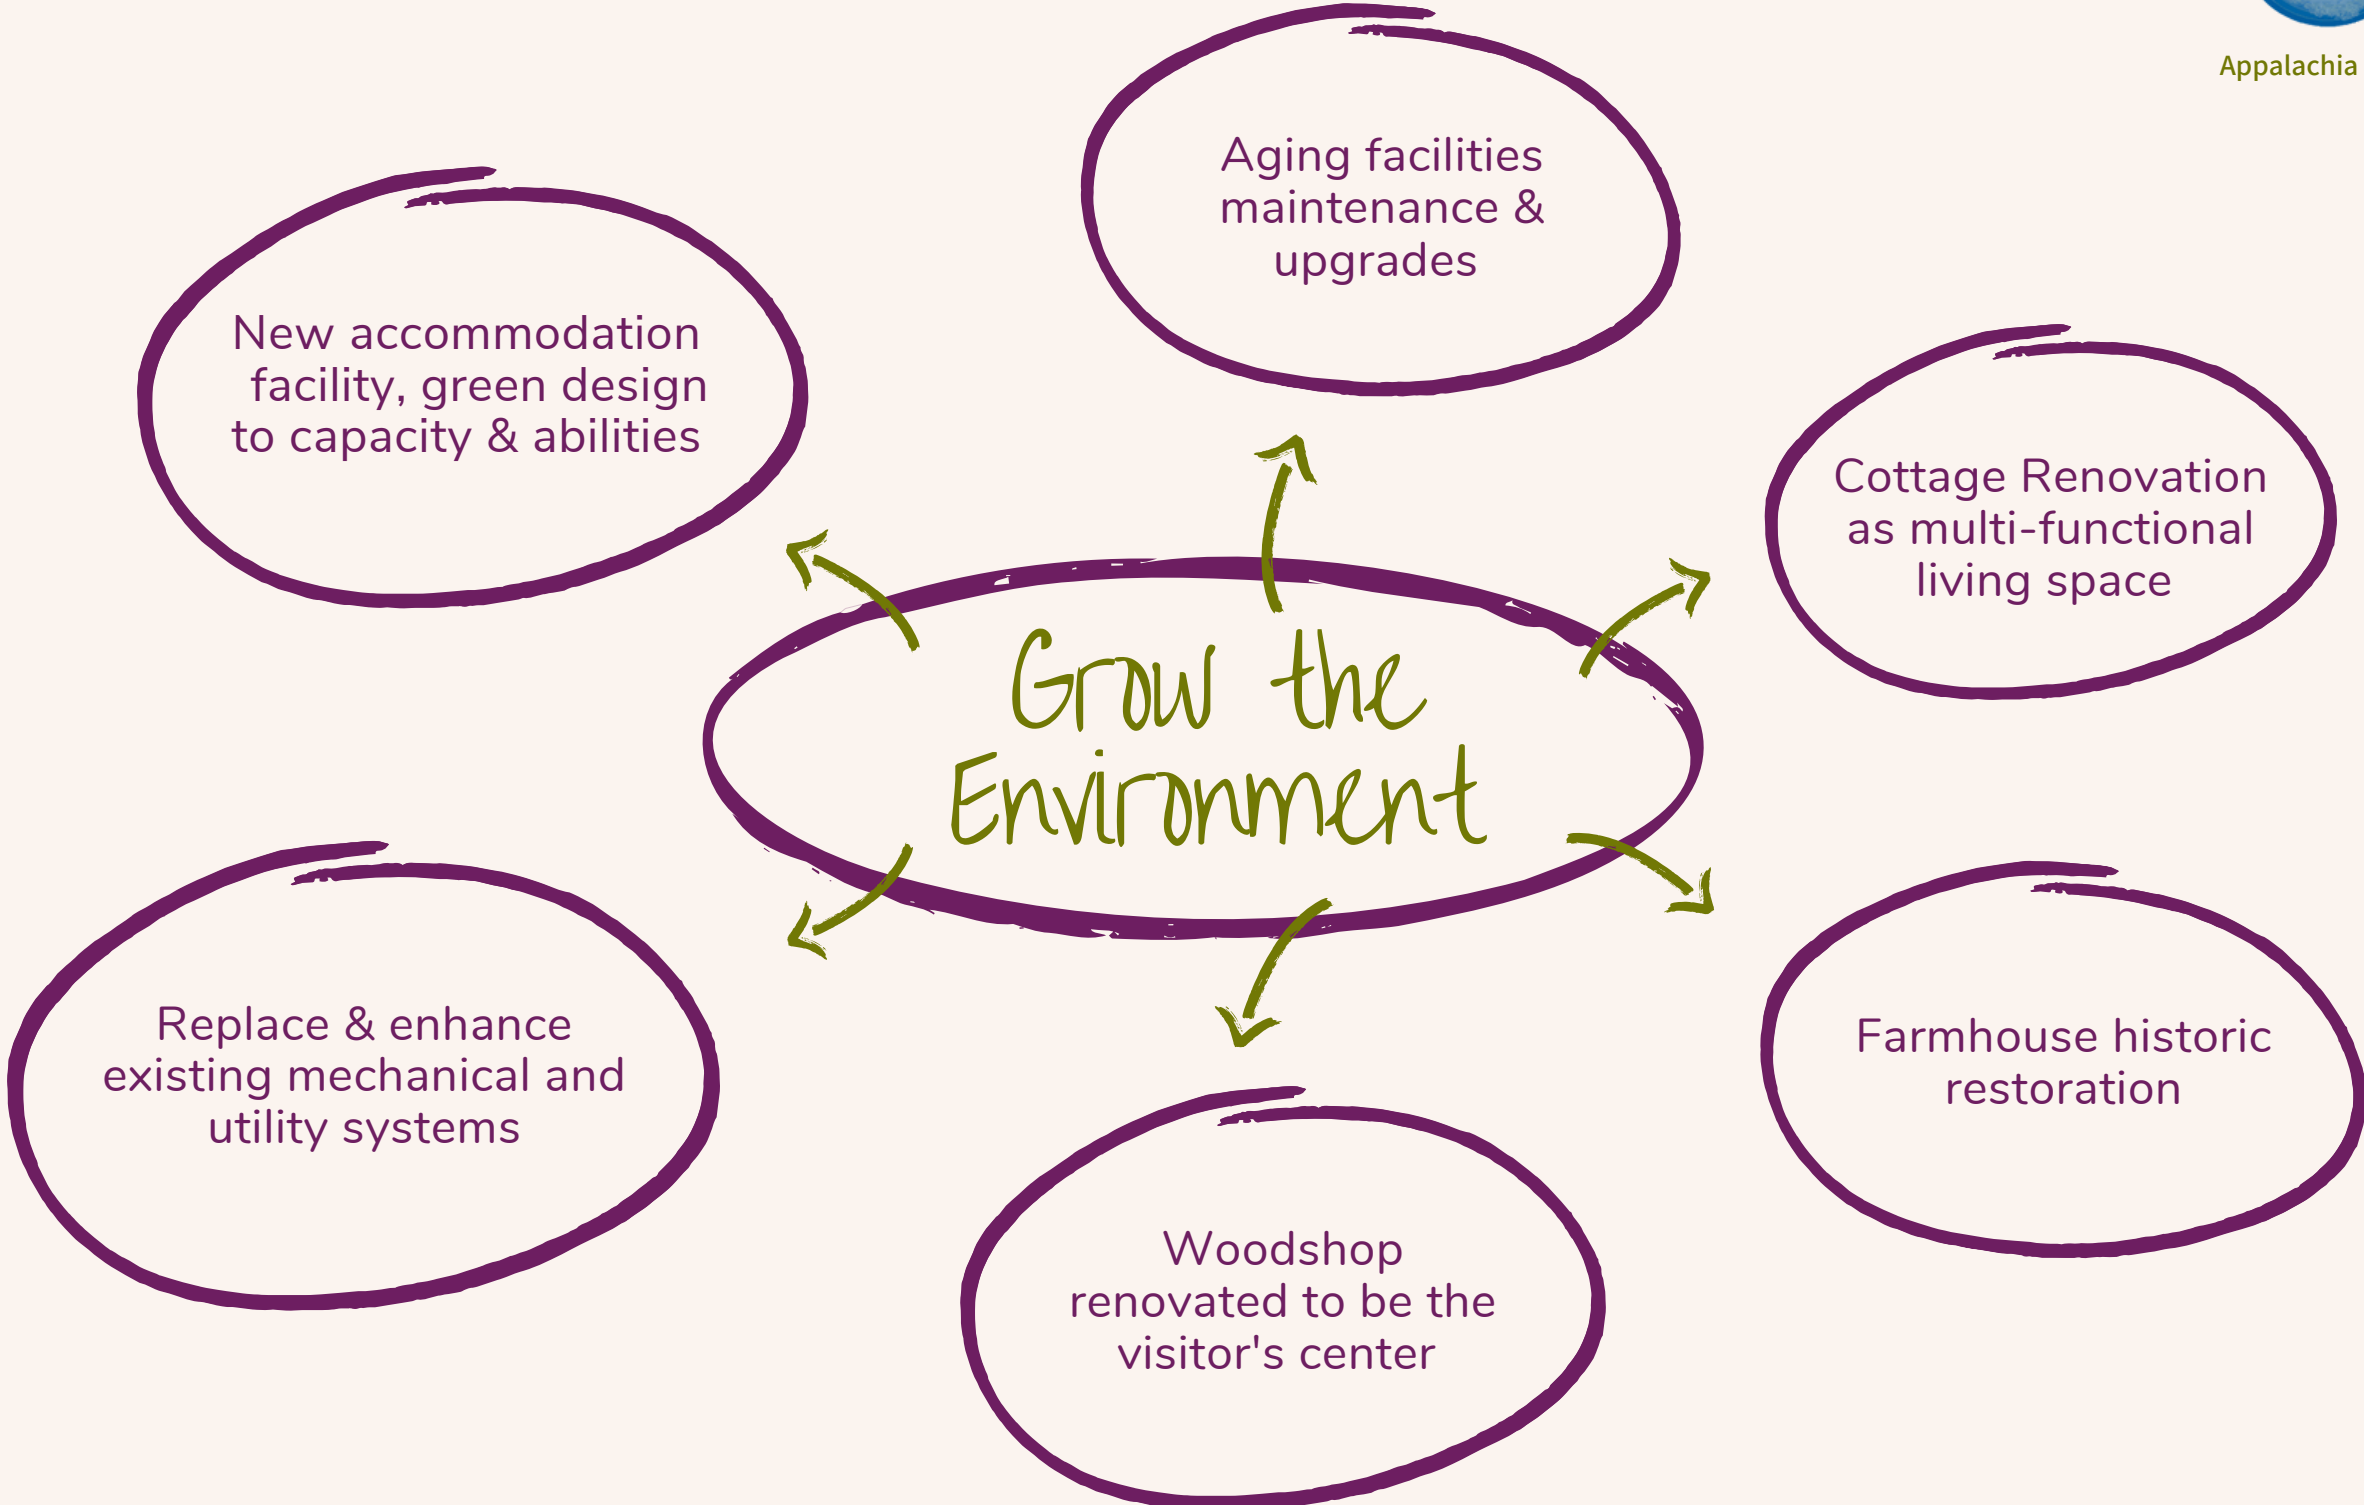

We practice an intersectional approach to our work that honors life's natural diversity and the dignity of every being.

Our Facilities Commitments

Our Facilities: Strategic Plan

A new accommodation building leaning towards a more sustainable design will be able to increase capacity, while lowering our carbon footprint. It also provides additional spaces that assist the overall functioning of the groups that are onsite.

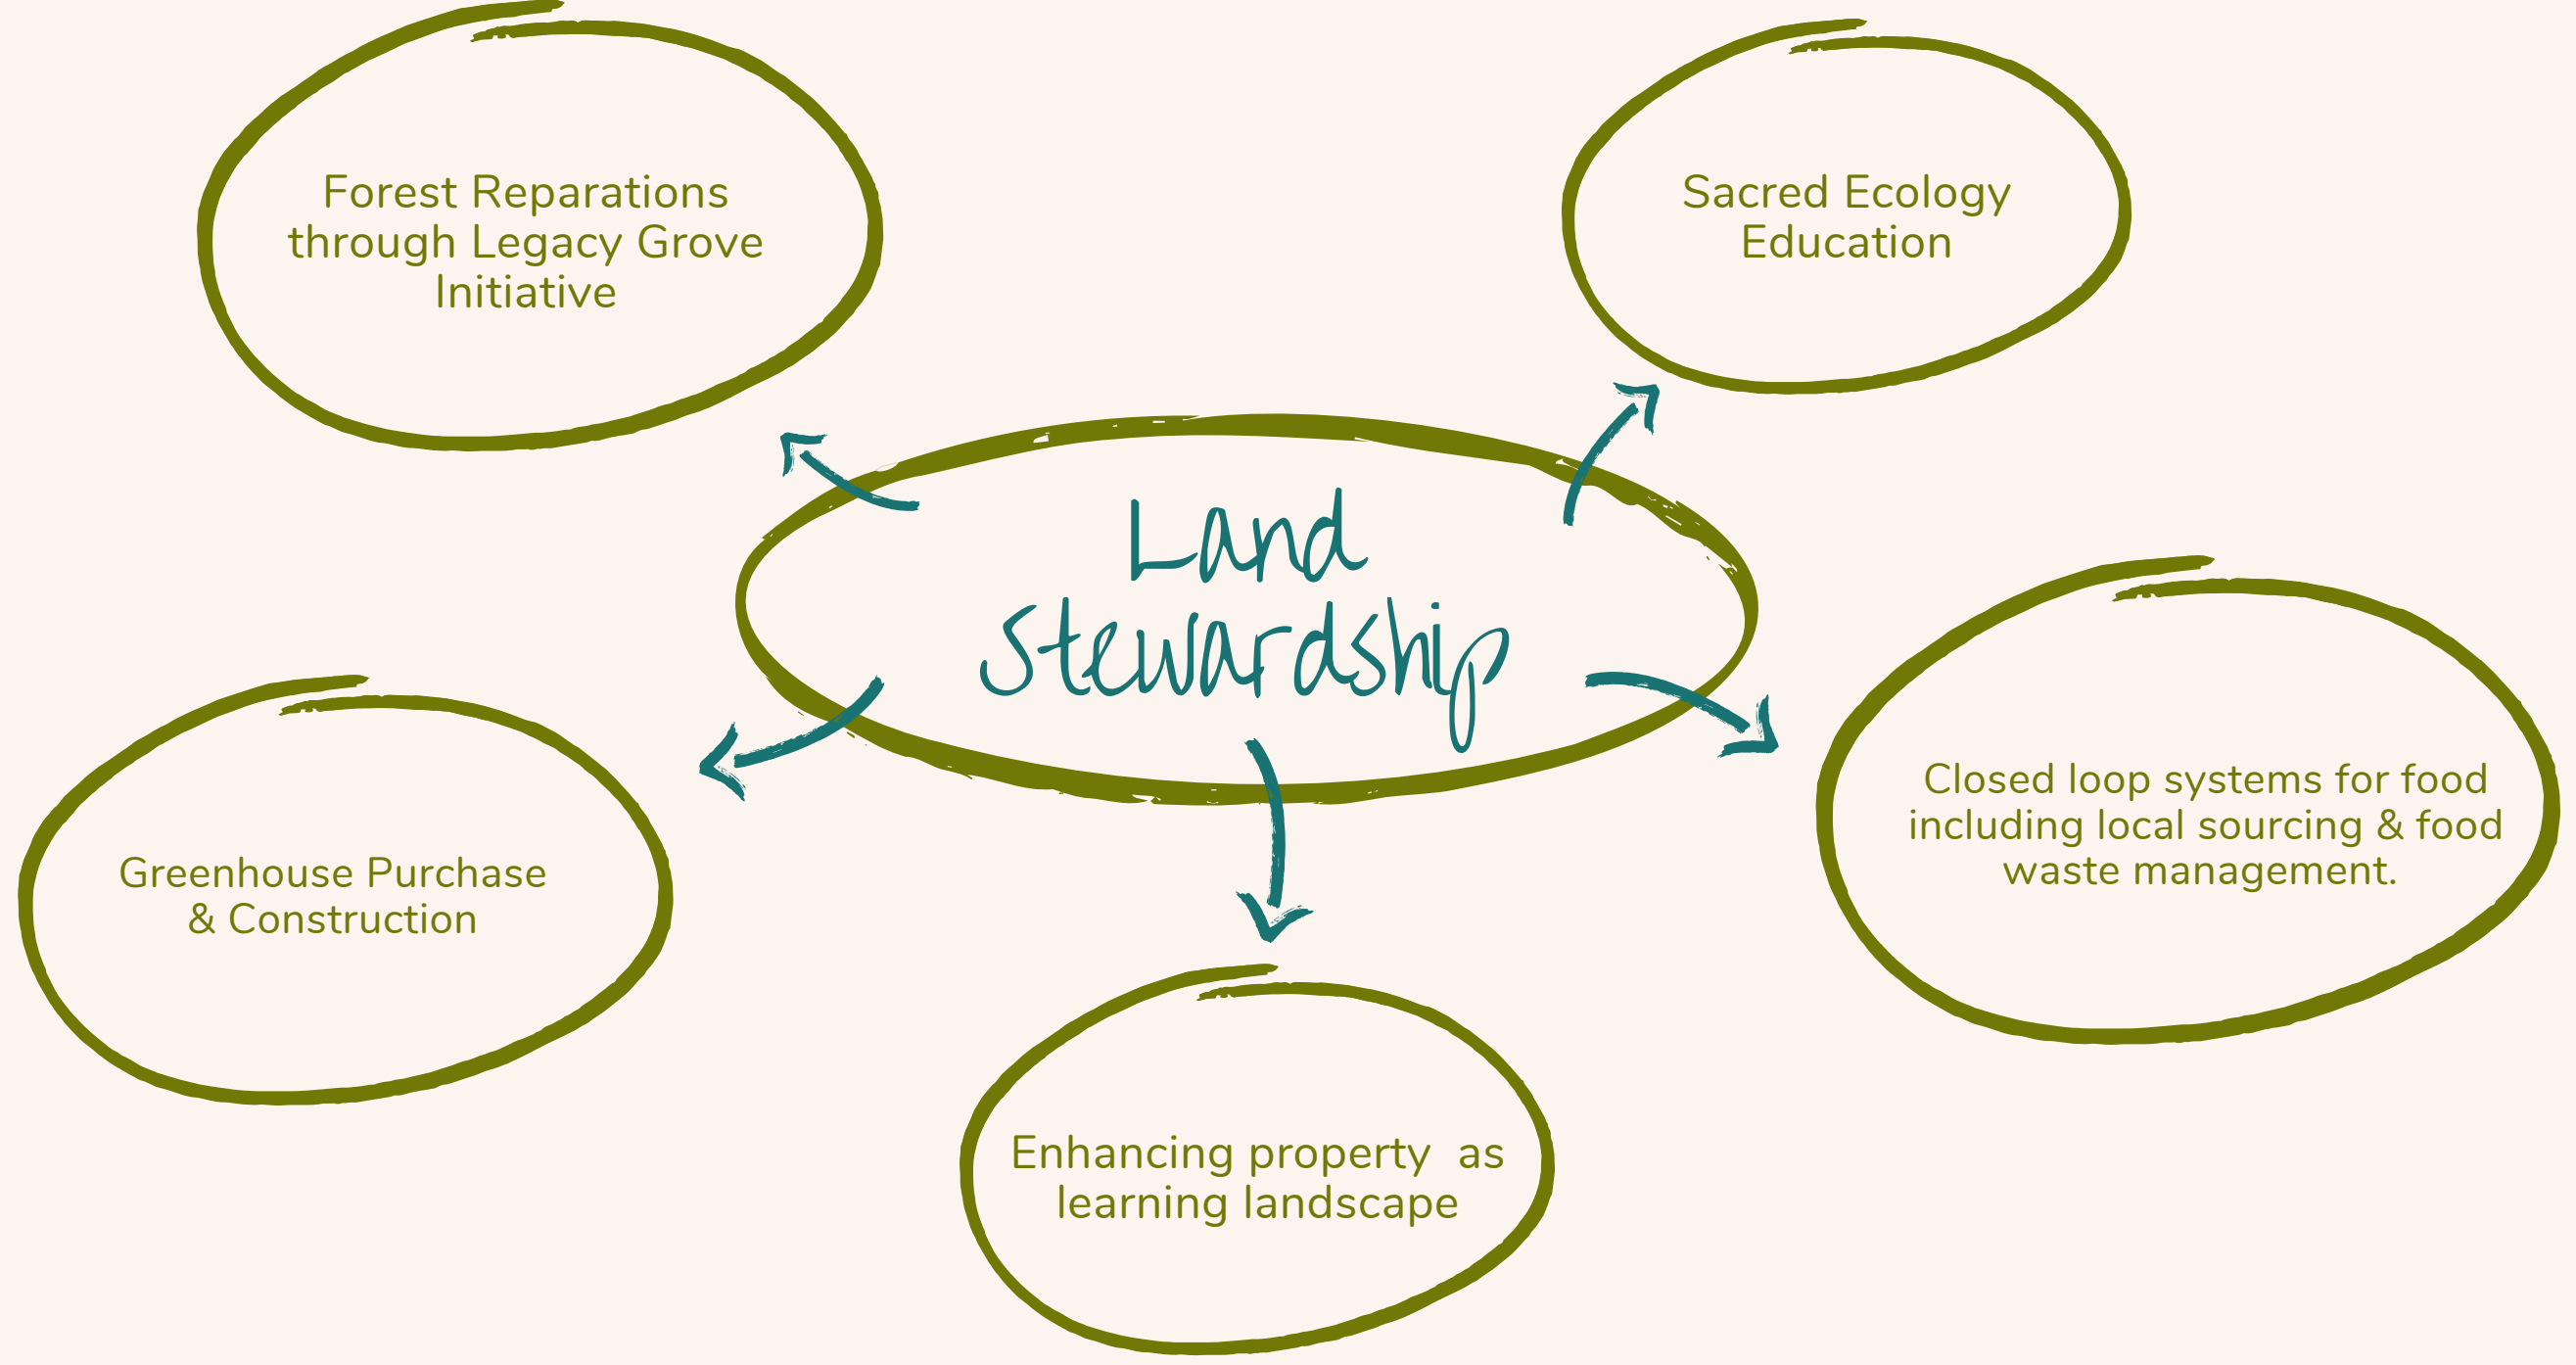

The Land Commitments

Our Land: Strategic Plan

The main focus of this work is living in right relationship with the land, and seeing land as sacred teacher. We take our role of Land Stewardship seriously and our Land Commitments show this intention.

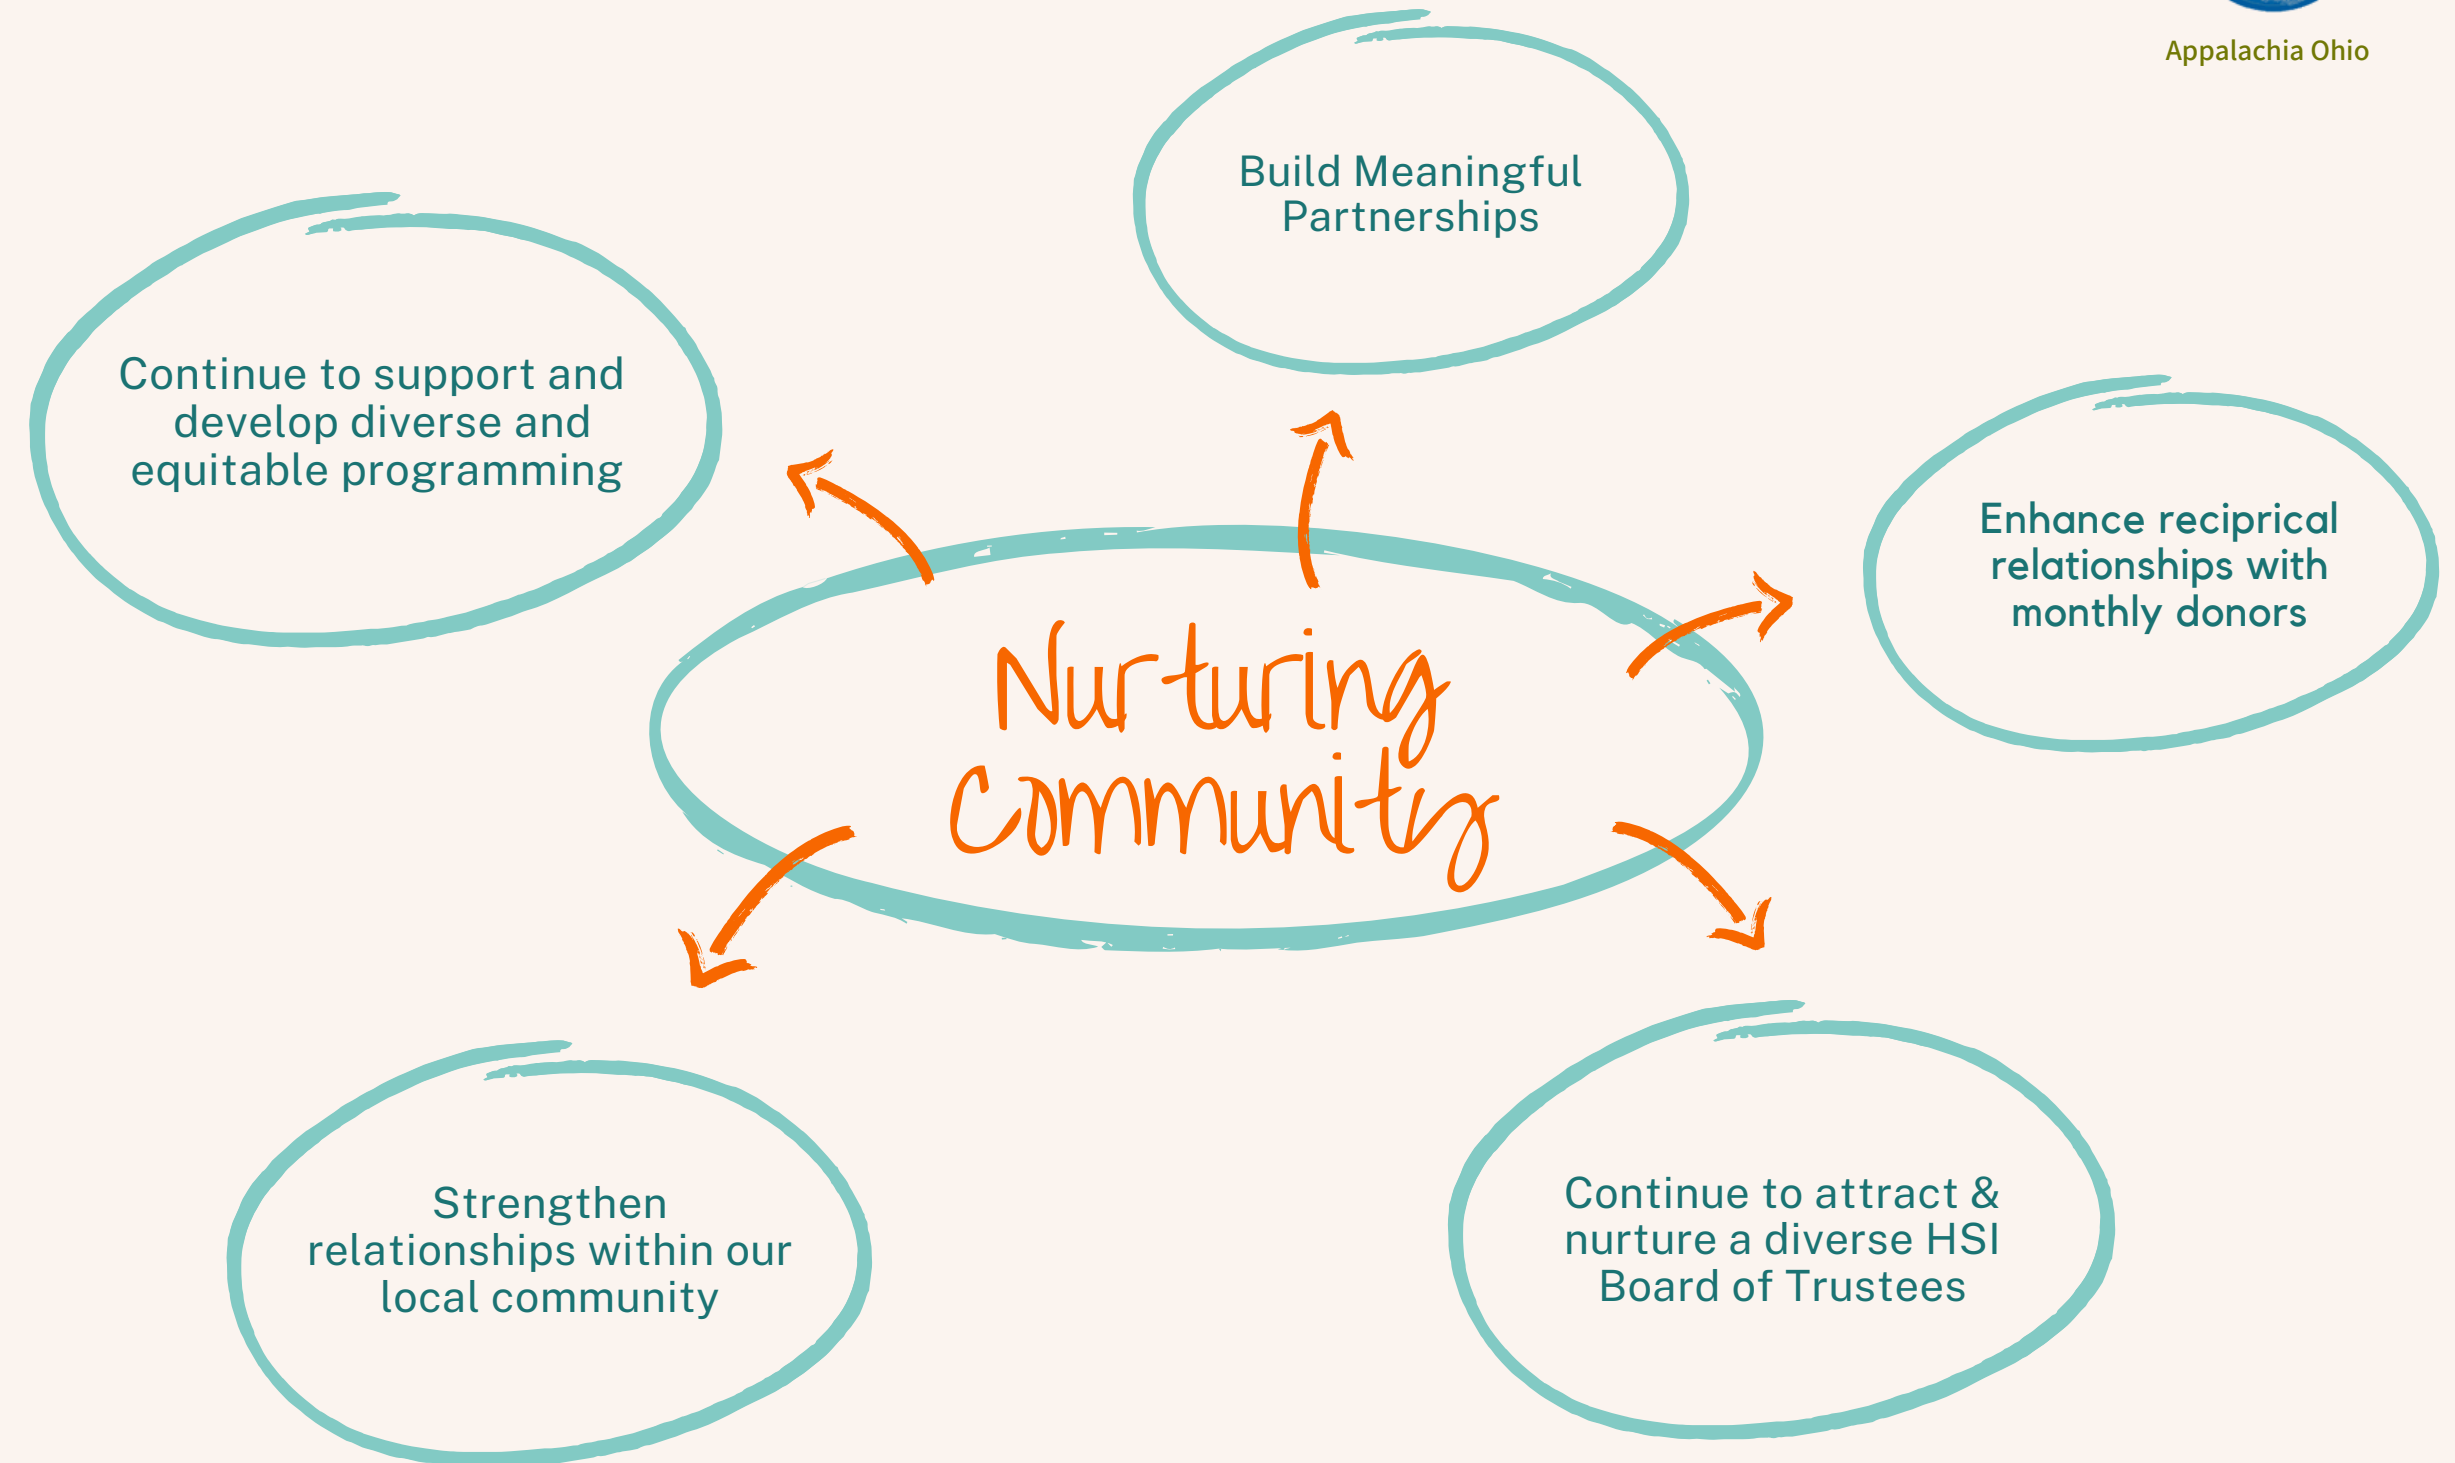

The Community Commitments

Our Community: Strategic Plan

We believe that community work is peace work. This commitment is a promise to build a stronger, more diverse community that leads to deeper relationship between self, other, and Mother.

How to Get Involved

Each step of our journey has included our community members. Each step.

Today is no different. We need your ongoing support to overcome the current challenges, while also continuing to sow seeds for a brighter future filled with a hopeful message of the importance of inner and outer work. See below on how you can donate to our mission and vision for a more peaceful, and just world.

THANK YOU!

We can only do this with your support!
